

Johannes Kepler University- Linz School of Education

in the name of STEAM + project partners and
in the name of our organization is inviting
You to STEAM+ Linz Innovation Lab and
educational policy meet up, with the Key
Theme: Fun Solutions for Societal
Challenges.

Erasmus+

WHERE & WHEN TO MEET

Policy meet up will be organized at:
Johannes Kepler University - Linz
School of Education, Science Park 5
Altenberger Straße 69
4040 Linz

Policy meetup will last three days 11,
12, and 13 May 2022.

WHO TO MEET

This meeting will bring together representatives from nine European countries (Austria, Belgium, Denmark, Germany, Italy, Lithuania, Netherlands, Norway and Romania), covering the following fields:

- Policymakers (representatives of ministries of education, delegated decision-making persons by college and university, deans);
- Representatives of the European Union- Education and Training department;
- University professors;
- Representatives of talented university students;
- Steering Committee of STEM STEAM + project.

WHY MEET

Policymakers play a critical role in facilitating change and maintaining long-term viability. Bringing policymakers and practitioners together will enable them to take the required actions to use Transdisciplinary Talent Programs to create STEAM in higher education. At this meeting, policymakers, together with practitioners, will exchange ideas on the opportunities and challenges they face both nationally and internationally. The exchange of experiences of policymakers and practitioners from nine European countries will potentially result in new ideas for improving STEAM education. Policymakers will have the opportunity to visit Linz STEAM + Innovation Lab, where they will have the chance to see the STEAM + approach in action, i.e. talented students from nine European countries who apply STEAM principles, work on Fun Solutions for Societal Challenges.
